*No.* 556.—The following Amending Letters Patent for the High Court of Judicature at Madras bearing date the 11th of March in the Ninth year of the reign of George the Fifth A.D. 1919 is published :—

GEORGE THE FIFTH by the Grace of God of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India.

To all to whom these Presents shall come, greeting :

Recital of establishment of High Court.

WHEREAS Her late Majesty Queen Victoria by Letters Patent under the Great Seal of the United Kingdom of Great Britain and Ireland bearing date at Westminster the twenty-ninth day of June in the year of Our Lord One thousand eight hundred and sixty-two did erect and establish a High Court of Judicature at Madras for the Presidency of Madras :

Recital of further Letters Patent.

AND WHEREAS Her late Majesty Queen Victoria by Letters Patent under the Great Seal of the United Kingdom of Great Britain and Ireland bearing date at Westminster the twenty-eighth day of December in the year of Our Lord One thousand eight hundred and sixty-five did revoke the said Letters Patent bearing date the twenty-ninth day of June One thousand eight hundred and sixty-two but notwithstanding that revocation did continue the said High Court of Judicature at Madras :

Recital of 5 & 6 Geo. 5, c. 61 and 6 & 7 Geo. 5, c. 37.

AND WHEREAS by Section One hundred and six of the Government of India Act, 1915, as amended by the Government of India (Amendment) Act, 1919, it was provided that Letters Patent establishing, or vesting jurisdiction or powers or authority in, a High Court might be amended by Us from time to time by further Letters Patent :

Amendment of Letters Patent of 1865.

1. NOW KNOW YE THAT We upon full consideration of the premises and of Our special grace certain knowledge and mere motion have thought fit to amend and by these Presents do accordingly amend the said Letters Patent bearing date the twenty-eighth day of December in the year of Our Lord One thousand eight hundred and sixty-five in manner following that is to say :—

(*a*) In the 8th clause of the said Letters Patent the words "and We do hereby ordain that every such appointment shall be forthwith submitted to the approval of the Governor in Council, and shall be either confirmed or disallowed by the Governor in Council" shall be omitted ;

(*b*) In the 15th clause of the same for the words and brackets "(not being a sentence or order passed or made in any criminal trial)" the words and brackets "(not being an order made in the exercise of revisional jurisdiction and not being a sentence or order passed or made in the exercise of the power of superintendence under the provisions of Section One hundred and seven of the Government of India Act, 1919, or in the exercise of criminal jurisdiction)" shall be substituted ;

(*c*) In the 36th clause of the same for the words "under the provisions of the Thirteenth section of the aforesaid Act of the Twenty-fourth and Twenty-fifth years of Our reign" the words and figures "in pursuance of Section One hundred and eight of the Government of India Act, 1915," shall be substituted ; and

(*d*) For the 45th clause of the same the following shall be substituted, namely, "And We do further ordain and declare that all the provisions of these Our Letters Patent are subject to the legislative powers of the Governor-General in Legislative Council, and also of the Governor-General in Council under Section Seventy one of the Government of India Act, 1915, and also of the Governor General in cases of emergency under Section Seventy-two of that Act, and may be in all respects amended and altered thereby."

Publication and commencement.

2. And We do further ordain and declare that these Letters Patent shall be published in the *Fort St. George Gazette* and shall have effect from the date of such publication.

IN WITNESS whereof We have caused these Our Letters to be made Patent.

RESOLUTION.—The following procedure has been arranged by the Government of India in discussion with the Government of the Union of South Africa to facilitate the admission into the Union of the wives and minor children of Indians resident in that country.

2. The husband or father resident in South Africa who desires to obtain a certificate of relationship from a magistrate in India to facilitate the admission into the Union of South Africa of his wife or children under the age of sixteen years will, in the first instance, make application in the prescribed form to the immigration authorities in South Africa or to the magistrate of the district in South Africa in which he is residing and on obtaining from the proper officer in South Africa a certificate in respect of his application will transmit the same to his wife or child, as the case may be, for production with his application for a certificate of relationship before the principal local magistrate in India, viz., the Chief Presidency Magistrate in a Presidency town, the Political officer in a Native State, or the District Magistrate elsewhere.

3. The principal local magistrate in India on receipt of such application and on production before him of the certificate issued in South Africa will institute an enquiry either personally or through an officer not below the rank of a Deputy Tahsildar, a Sub-Deputy Collector of a Mamlatdar according to the province concerned, and if the senior magistrate is satisfied as to the alleged relationship, he will grant a certificate of relationship in the attached form in favour of the person (or persons) referred to in the application who will present it to the Immigration officer at the port of entry in support of ___his/her___ claim to admission into the Union.

No. 3687.

EXECUTIVE.—The following letter received from the Government of the East Africa Protectorate is published for general information:—

P.S. No. S.-29 20.

THE SECRETARIAT, NAIROBI,
EAST AFRICA PROTECTORATE,
*June 27, 1916.*

SIR,

I have the honour to inform you that the Government of the British East Africa Protectorate has recently had under consideration the desirability of enforcing more strictly the provisions of the Immigration Restriction Ordinance, 1906, and the Immigration Restriction Amendment Ordinance, 1910, copies of which are enclosed herewith.

2. Section 11 of the original enactment provided that any person appearing to be a prohibited immigrant under section 5 (a)* might be permitted to enter the Protectorate on payment of a deposit according to nationality†. In the course of time this restriction was shown to be acting as a deterrent in the case of persons who might well be admitted to the country, and the amending Ordinance was promulgated whereby the Immigration Officer was empowered to accept security in lieu of the deposit.

3. In the great majority of cases no arrangements for this security are made prior to embarkation and in consequence such persons have hitherto been allowed to land in order that they may be given the opportunity of finding a surety. This concession has led to abuse and is in itself objectionable inasmuch as the deposit prescribed by section 11 of the Ordinance of 1906 is payable before landing, and if this section is read together with section 3 (1) of the amending Ordinance of 1910 it is clear that the demand for security must also be complied with before landing.

4. The Government has therefore decided that all immigrants should either make the necessary deposit, or provide the security required, before leaving the ship on arrival in port. The strict enforcement of this regulation will take effect as from the 1st of September 1916 and I have the honour to request that steps may be taken to make this procedure known in those districts from which immigrants to British East Africa usually arrive. Persons who cannot deposit the necessary sum or have failed to find the requisite security will after that date be sent back to India, and the Government of this Protectorate will not hold itself responsible for any expenditure thus incurred.

I have the honour to be,
SIR,
Your most obedient servant,

C. C. BOWRING,
*Chief Secretary to the Government.*

Local Governments and Administrations are requested to make the intimation contained in the latter as widely known as possible, particularly in places from which emigration to British East Africa is believed to be most common. Intending emigrants should also be warned of the risks they run in proceeding to the Protectorate if they are unable, before landing, to deposit the sum of Rs. 50 or to comply with the demand for the requisite security in lieu of the deposit.

* The section prohibits the immigration of any person without visible means of support or any person who is likely to become a pauper or a public charge.

† The deposit required from a native of India is Rs. 50.

HOME DEPARTMENT.

POLITICAL.

*Delhi, the 28th December* 1916.

Nos. 2961—2964.

RESOLUTION.—In supersession of the orders contained in the Resolution of the Government of India in the Home Department, No. 2881-2642, dated the 8th December 1838, the Governor-General in Council is pleased to issue the following instructions with regard to certificates of identity.

2. Every native of India who contemplates proceeding out of India to foreign countries is strongly urged before leaving, to furnish himself with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency Town and in the town of Rangoon, the Commissioner of Police) in the case of residents of British India, and by the Political Officer in that of residents of Native States. In the case of a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer in a Presidency Town and in the town of Rangoon, the Commissioner of Police) or Political Officer as the case may be.

Appeals for assistance by destitute Indians who desire repatriation and by students who, owing to embarrassed circumstances, are unable to complete their courses of education cannot be dealt with satisfactorily unless the parties are in a position to produce evidence of identity. The possession of a certificate of identity will be specially useful to young men of good family, as it may enable the Secretary of State to obtain for them social and other attentions.

Those who are desirous, however, of travelling in countries where a passport will be necessary are advised to furnish themselves with such a document also before leaving India, in lieu of, or in addition to, a certificate of identity. It should be remembered that no person is entitled to a passport, as of right, on the ground that he is a British subject, and the production before authorities outside India of a certificate of identity, unless supplemented by documentary evidence of respectability, is not sufficient to ensure that a passport will be granted.

*Form of Certificate of Identity.*

1. Name of applicant ——
2. Father's name and caste ——
3. Residence ——
4. Age of applicant ——
5. Nationality of applicant* ——
6. Social or pecuniary status of father (or guardian) ——
7. Date of probable departure of applicant from India ——
8. Object of applicant's visit to England (Europe) ——

*Signature of District Officer (in a Presidency Town, the Commissioner of Police) or Political Officer, or head of school or college.*†

*Dated* ——

* I.e. whether a British subject by birth or by naturalization (or a subject of a Native State).

† Countersignature of the District or Political Officer should be obtained on certificates signed by heads of schools or colleges.

NOTE.—Holders of certificates of identity intending to apply subsequently in England or elsewhere for a passport to visit a foreign country are warned that no person is entitled to a passport as of right on the sole ground that he is a British subject. The production of a certificate of identity, therefore, will not ordinarily be sufficient to secure the grant of a passport, unless it is supplemented by documentary evidence of respectability, endorsed by a Local Government or other authority competent to issue passports in India, certifying that the holder is a fit and proper person to receive a passport.

INSURANCE.

*Simla, the 9th June 1919.*

RESOLUTION No. 4033.—In view of the results disclosed by the actuarial valuation of the assets and liabilities of the Post Office Insurance Fund as at

31st March 1912, the Government of India announced, in the Resolution from the department, No. 4016–4050–91, dated the 22nd May 1914, the grant of a bonus to the policy-holders. A further valuation of the fund as at 31st March 1917 has again shown a substantial surplus so as to permit of the distribution of a considerable portion thereof without upsetting the financial stability of the fund. The Governor-General in Council is accordingly pleased to grant to the holders of policies in force on 31st March 1917 a reversionary bonus as an addition to and payable with the sum assured at the rate of 1½ per cent thereon in the case of whole life assurances, secured by premiums payable throughout life or for a limited period, or under which no further premiums are payable, and 1 per cent in the case of endowment assurances for each full year, the respective policies were in force between 1st April 1912 and 31st March 1917. This bonus will be allowed in the case of policies now in force and of all claims which have arisen either by death or survivance since 31st March 1917 under policies in force on that date, but not to policies surrendered before the date of this resolution. In the case of transferred or reduced policies, bonus will be allotted to the respective policies, as they existed on 31st March 1917. In addition to the abovementioned bonus an *interim* bonus at two-thirds of the above rates will be allowed in the case of whole life and endowment assurance policies which become claims by death between 1st April 1917 and 31st March 1922 for each full year they were in force during that period. An *interim* bonus at the rate of 1 per cent will be allowed in the case of endowment assurance policies which become claims by survivance between 1st April 1917 and 31st March 1922 for each full year they were in force during that period. The *interim* bonus will be based on the amount of the sum assured at date of death or survivance. No fraction of a rupee will be payable as bonus

The Governor-General in Council is also pleased to direct that under limited payment and endowment assurance policies the maximum number of monthly premiums payable after this date will be twelve times the difference between the office age at entry and the age at which the premiums are to cease.

MADRAS LAW COLLEGE.

AUTUMN TERM, 1919.

The College reopens on Monday, 7th July and regular work for the autumn term for all the classes will commence and attendance will count from that date. The first lecture will be delivered for each of the classes from 10 to 11 a.m. on Monday the 7th July 1919.

*New admissions.*

*B.L., P.L. and Pleadership classes.*—Candidates seeking admission to the B.L. class shall have passed the First Examination in Law and those seeking admission to the P.L. and Pleadership classes, the B.A. Degree Examination.*

* No candidate will be admitted to the College unless he presents, together with his application, a transfer certificate showing (*a*) the name of the candidate in full, (*b*) the date of birth as entered in the admission register, (*c*) the dates on which he was admitted in and on which he left the institution, (*d*) the class in which he studied at the time of leaving it, (*e*) the subjects or portions thereof studied by him while enrolled, and (*f*) that he has paid all fees or other moneys due to that institution in respect of the last term in which he was enrolled.

No student will be allowed to attend the B.L. and Pleadership classes together. In the case of an applicant who had been previously employed, the application must be accompanied by a certificate of good character from the head of the office where he was employed. In the event of his being employed in a Department where a register of service is maintained, the application should be accompanied by an authenticated extract from such register.

*Term fees.*

The term fee for the M.L. classes (Branches I, III and IV) will be Rs. 80, for the B.L. and P.L. classes will be Rs. 100, and for the Pleadership class Rs. 50. But Muhammadans, Uriya and all other students belonging to the backward classes or castes specified in article 15 of the Grant-in-Aid Code will be required to pay only half the above fees, provided they produce a poverty certificate from their District Collector.

All fees must be paid into the Bank of Madras (at the Head office only) between Monday the 23rd June and Saturday the 19th July 1919 to the credit of Government under the head "XIX. Educational fees—Government Colleges, Professional—Law College," and the receipt filed in the College office.

Fees should not, under any circumstances, be paid at the branches of the Bank of Madras or into the Government Treasuries, and the Principal will decline to receive fees in cash or receipts for payments made in Treasuries other than that of the Bank of Madras. No exception whatever will be made to this rule.

*Application for admission*

NOTE.—(1) Application forms may be obtained on application to the College clerk. These must be duly filled up and filed in the College office, with the Bank's fee receipt, and in the case of P.L. and Pleadership candidates with the vaccination certificate. *Applications with incomplete entries will not be accepted and no name will be registered until the application in the prescribed printed form is filed in the College office.*

(2) *Vaccination.*—Under G.O. No. 908, Public, dated 18th August 1884, *all persons applying for admission into Government Professional Colleges* are required to produce "certificate of re-vaccination after the completion of the tenth year; or should they not have been vaccinated in early childhood, of vaccination after reaching the age of ten years. In the event of their having suffered from small-pox before or during their tenth year, they must produce a certificate of vaccination or re-vaccination subsequent to their having attained the age of ten. This certificate will not, however, be required from persons who bear the marks of small-pox and who produce a certificate signed by two respectable householders that to their personal knowledge the individual was attacked with small-pox after he has completed his tenth year."

(3) The certificate of vaccination or re-vaccination referred to above must under the rules embodied in the Government Order quoted above (*vide rule* 17) be granted by registered Medical Practitioners either Surgeons or Assistant Surgeons or Apothecaries or Sub-Assistant Surgeons or Deputy Inspectors of Vaccination.

Lectures will be delivered in all the subjects required for the P.L., B.L. and Pleadership examinations and in most cases these will be supplemented by classes.

Law College, Madras,
7th April 1919.

A. DAVIES,
*Principal.*

## GENERAL NOTIFICATIONS.

### NOTICE OF THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.

PUBLIC ROOM, OPEN 11 A.M. TO 4 P.M.; SATURDAYS, 11 A.M. TO 1 P.M.

*All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) must be made in English and addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed and a full address given in all communications.

2. *Directions* for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee) which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915, together with current regulations and instructions. *These should be consulted before an application is made to the Controller.*

3. *Advice.*—The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular Agent; or (4) to assist in the disposal of inventions. Models are not required unless specially asked for. Drawings must be on tracing cloth and the Rules and Instructions for the preparation of drawings as given in the Handbook should be strictly followed. A provisional patent cannot be secured under the Indian Patents and Designs Act, 1911.

4. Applicants are warned that the Indian Patent and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India applications should be made to the patent offices in the countries concerned.

5. *Fees* are payable in *cash* and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission for which due allowance should be made. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

6. *Trade and property marks and names* are not registered and *medicines* are not patented under the Indian Patents and Designs Act. There is no provision of law in British India for their registration. Neither does this Act deal with *pictures, photographs, etc.*, for which copyright is obtainable under the Indian Copyright Act, 1914.

7. *Printed specifications* of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the *Gazette of India*. These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

## NOTIFICATION.

GOVERNMENT OF INDIA.

GENERAL SPECIFICATION FOR ELECTRICAL WORKS IN GOVERNMENT BUILDINGS.

MODEL FORM, 1918.

*Subject to the General and Special Conditions of Contract in force (separately printed, see note on cover).*

### A.—GENERAL.

1. *Wiring rules of the I.E.E.*—The installation generally shall be carried out in conformity with the latest edition of the Wiring Rules of the Institution of Electrical Engineers (London), hereinafter referred to as the "I.E.E. Wiring Rules" but, where this Specification or the attached Special Conditions of Contract differ from those rules, the Specification and Special Conditions shall be followed.

2 *Definitions and conventional symbols.*—The definitions of terms in the I.E.E. Wiring Rules, Seventh Edition, Nos. 4 to 22 (reprinted in Annexure I) shall apply except No 12. A "point" shall consist of the branch wiring from the branch distribution board, together with a switch if required on for as far and including the ceiling rose or wall plug, etc. The attached list of conventional signs and symbols shall be used in all drawings, wiring plans, etc. (Annexure II).

3. *Pressure and frequency of supply.*—All current consuming devices shall be suitable for the pressure and frequency of supply stated in the Special Conditions of Contract

4. *System of Wiring.*—(1) The wiring shall be carried out on such system as may be specified in the Special Conditions of Contract, and, unless otherwise specified in the Special Conditions of Contract, "power" wiring will be kept separate and distinct from lighting wiring. The wiring must be done on the distribution system, with main and branch distribution boards at convenient centres and without isolated fuses. All connections shall be run as far as possible along the walls and ceiling, so as to be easily accessible and capable of being thoroughly inspected. The balancing of circuits in 3-wire or 3-phase installations shall be arranged beforehand by the Engineer. Circuits on opposite sides of a 3-wire system or on different phases of a 3-phase system should be kept as far as possible apart, where bringing them into the same room is unavoidable.

(2) Within one month of the taking over of the installation the Contractor shall supply to the Engineer a complete set of wiring diagrams of the same, on drawings to be supplied, when available, by the Engineer, and to the satisfaction of the Engineer, and these wiring plans shall be deemed to be "drawings" within the meaning of the term as used in the General Conditions of Contract. (*See Special Conditions of Contract.*)

5. *Conductors.*—All conductors to be of copper to accordance with the resolutions of the Engineering Standards Committee as set forth in the I.E.E. Wiring Rules, 7th Edition, No. 57; *vide* Annexure I. Except as provided in clause 16, no insulated conductor shall have a cross-section less than that of one No 18 S. W. G, and every such conductor of greater cross-section shall be stranded.*

6. *Cables.*—(1) All cables, other than flexible cables, unless the contrary is expressly stated in the Special Conditions of Contract, shall be "Association cables" of the British Cable Makers' Association and each coil must be accompanied by the maker's test certificate to that effect, stating the "class" and giving the results of insulation tests. The dielectric to be vulcanized rubber of 250 volt I.E.E. grade (I.E.E Wiring Rule 16 in Annexure I) unless otherwise specified in the Special Conditions of Contract.

(2) Twin flexible cables shall comply with the I.E.E. Wiring Rules (7th Edition), Nos. 53 to 55, *vide* Annexure I.

(3) All taped cables shall have the maker's name or other means of identification, printed on the tape.

7 *Fall of potential.*—The cross-sectional area of all conductors inside buildings shall be so proportioned to their length that the drop in pressure between the main fuses and the furthest or any lamp shall not exceed 2 per cent with all the consuming devices in use,

8. *Rating of lamps and fans.*—In estimating the current to be carried by any conductors, glow lamps are to be rated at 4 and 1·25 watts per candle-power for carbon and metallic filament lamps respectively where the conditions are known, and otherwise at 60 watts, except in the case of gas filled lamps. Ceiling fans are to be rated at 140 watts; table fans at 80 watts; unless actual values are known and specified.

9. *Tests.*—The installation with fittings complete shall, before current is switched on, satisfactorily pass the following test,—

The whole of the lamps and appliances having been connected to the conductors, and all switches and fuses being "on," a pressure not less than twice the intended working pressure (subject to a limit of 500 volts) shall be applied and the insulation resistance of the whole or any part of the installation to earth must not be less in megohms than 25 divided by the number of points as defined above. With all lamps and appliances removed from the circuits a similar test between poles may be demanded. Provided that during the rainy season, or in new buildings at any season, half the above test value will be accepted. Where any appliance referred to is a motor larger than one half B. H. P., the insulation resistance of that particular circuit must be greater than 1 megohm.

10. *Joints and looping back.*—Unless with the sanction of the Engineer all joints in conductors shall be made by means of approved mechanical connectors in suitable and approved joint boxes; but "looping back" is preferable.

11. *Switches.*—(1) All main switches (other than those of ironclad pattern) carrying over 10 amperes shall be fitted for back connections.

(2) All switches and circuit breakers shall be constructed in accordance with I. E. E. Wiring Rules (7th Edition), No. 98 (*vide* Annexure I); provided also that springs shall be either of phosphor bronze or, if of steel, shall be copper or nickel-plated; and that handles shall be so fastened that they do not tend to unscrew and become loose. (*See also clause* 13.)

* During War conditions the provision as to stranded conductors will be relaxed where necessary.

12. *Control at point of entry of supply.*—There shall be one main switch and one main fuse on each pole of each main circuit (other than the neutral conductor of a 3-wire circuit) at the point of entry of the supply. The switches must be linked unless otherwise specified in the Special Conditions of Contract.

13. *Distribution boards.*—(1) Main distribution boards shall be of marble or slate, or iron skeleton frames for ironclad switchgear, and shall be provided with a switch and fuse on each pole of each circuit.

(2) Branch distribution boards shall be provided with one fuse on each pole of each circuit. One spare circuit of the same carrying capacity shall be provided on each branch distribution board. No final fan sub-circuit radiating from a branch board shall carry more than 4 fans. Incandescent lighting sub-circuits shall comply with the limits specified in I.E.E. Wiring Rule (7th Edition), No. 32; *vide* Annexure I.

(3) Switches and fuses of opposite polarity shall be mounted on separate bases and the holes for the fixing bolts of the bases shall be bushed.

(4) In wiring a branch distribution board the total number of lamps shall be divided as far as possible evenly between the number ways of the board. The spare circuit shall be left for future extensions.

(5) In the construction and fixing of main and branch distribution boards the following requirements shall be fulfilled:—

(*a*) A bracket carrying an 8 candle-power lamp shall be fixed over each main board and connected through an independent single pole-switch and fuse to the bus bars of the board controlling the lighting circuit. If required by the Special Conditions of Contract a pilot lamp shall be similarly fixed over each branch board.

(*b*) All fuses shall be of approved type.

(*c*) Connections shall be arranged as far as possible to form their own diagram.

(*d*) Connections of all circuits carrying more than 15 amperes shall be made by means of cable sockets.

(*e*) Fuses shall be of approved material and each circuit shall be clearly numbered from left to right in conspicuous figures, to correspond with the wiring plans.

(*f*) Two spare fuse carriers per main and branch board shall be supplied for replacements.

(*g*) All boards (other than those of "ironclad" pattern) shall have strongly made, well finished and approved teak cases with dovetailed corners and shall be painted, varnished or polished as directed by the Engineer, and shall be marked with conspicuous letters on labels, to correspond with the wiring plans [*clause* 4 (2)].

(*h*) Except in the case of "ironclad" boards, cases shall have hinged or sliding plate-glass doors with glass not less than $\frac{1}{16}$th inch in thickness, and the doors must be capable of being shut when any switch is either "on" or "off."

(*i*) Where so required by the Special Conditions of Contract the attachment of cases of branch and small main distribution boards to walls shall be so arranged as to enable the board to be swung from the wall, to allow examination of the back of the panels. Ample room shall be provided behind the board for the neat arrangement of the wires.

(*j*) Cases for use with conduit or cleated wiring shall be provided with suitable inlets and outlets.

14. (1) *Passing through walls.*—Except as laid down in clause 82, where conductors pass through walls one of the following alternative methods shall be used:—

(*a*) A hole of suitable area shall be made in the wall, through which the casing or conductors shall be carried so as to allow of an air space of not less than 1 inch on three sides of the casing or conductors, as the case may be: or

(*b*) The conductors shall be carried in an approved heavy gauge solid drawn or lapwelded insulated conduit or tube. Where casing wiring is used the ends of the conduit must be neatly entered into the casing and where cleated wiring is used the mouth of each tube shall be bushed with a shapheaded bush. Where the supply is alternating current the conductors of the circuit must be bunched.

(2) Where a wall tube passes outside a building so as to be exposed to the weather, the outer end shall be bell-mouthed and turned downwards.

15. *Plugging walls.*—Plugs for ordinary walls or ceilings shall be of well seasoned teak or other approved hard wood not less than 2 inches long by 1 inch square on the inner end and $\frac{3}{4}$ inch square on the outer end, except for use with metal-sheathed wiring (see clause 85). They shall be cemented into the walls, to within $\frac{1}{4}$ inch of the surface, the remainder being finished according to the nature of the surface used, with plaster or lime pugging; and to give the cement a hold on the plug, there must be on each of two opposite sides two countersunk cut less than $\frac{1}{4}$ inch diameter × $\frac{1}{8}$ inch deep. Unless otherwise similarly specified iron screws may be used for attaching casing to the plugs. Where owing to irregular coursing or other reasons the plugging of the walls or ceiling presents difficulties, the casing, conduit or cleats (as the case may be) shall be attached to the wall or ceiling in a manner approved by the Engineer.

16. *Branch switches (see also clause 11).*—In installations supplied from a 3-wire system all branch switches shall be placed on the "outer." Switches (other than those for multiple-control) controlling not more than 10 amperes shall be of the tumbler type, and the switch shall be "on" when the handle or knob is down. Where the specified position of branch switches is altered, any such alteration of position, after fixing, will be paid for.

17. *Ceiling roses and wall sockets.*—Ceiling roses and wall sockets shall not contain fuse terminals. Wall sockets shall comply with the requirements of the British Engineering Standards Committee.

18. *Fittings.*—Where conductors require to be threaded through tubes or channels formed in the metal work of fittings, these must be free from sharp angles or projecting edges and of such a size as will enable them to be wired with the conductors used in the final sub circuits without removing the braiding or taping. As far as possible all tubes or channels should be of sufficient size to permit of "looping back." Where, with the approval of the Engineer, "electrolier wire" is used for wiring fittings the sub-circuit leads must terminate in a ceiling rose or connector, from

which this will be carried into the fittings. Flexible wire must not be used for wiring fittings, except portable fittings. All fittings must have not less than a ½ inch male nipple. Fittings and lamp-holders for gas-filled lamps shall be adequately ventilated.

19. *Lamp-holders.*—Lamp-holders for use on brackets, etc., shall have not less than a ½ inch female nipple, and all those for use with flexible pendants shall be provided with cord grips. All lamp holders shall be provided with shade carriers. All cases must be solid and substantial, thin sheet copper type not being admissible. Edison screw holders will not be accepted for lamps below 100 watts.

20. *External and Road lamps.*—External and road lamps shall have weather proof fittings of approved design so as effectually to prevent the admission of moisture. An insulating distance piece of moisture proof material must be inserted between the lamp holder nipple and that of the fitting. Flexible cord conductors and cord-grip lamp-holders must not be used where exposed to the weather. In verandas and similar exposed situations rod pendants shall be used.

21. *Lamps.*—(1) All glow lamps, unless otherwise specified in the Special Conditions of Contract, shall be hung at a height of 8 feet above the floor level. Metal filament lamps shall be made of drawn wire only.

(2) When carbon filament lamps are used, they shall comply with the Engineering Standards Committee's specification for carbon filament glow lamps.

22. *Fans and Regulators:*

(1) (*a*) All ceiling fans shall be wired to a ceiling rose and suspended from a hook or shackle, and insulated from the same. All joints in the suspension rod shall be screwed and all joints or bolts in connection therewith shall be additionally secured by means of split pins.

(*b*) The canopy at the top of the suspension rod shall effectually hide the suspension.

(*c*) The leading in wires shall not be smaller than 3/22 S.W.G. and shall be protected from being cut.

(*d*) All fans shall be free from sparking, noise, oil throwing and excessive heating.

(2) Unless otherwise stated in the Special Conditions of Contract:—

(*a*) All fans shall be hung 9 feet above the floor.

(*b*) All fans shall be capable of running continuously at full speed for one month without additional oiling.

(*c*) Each fan shall have a separate switch.

(*d*) Each fan shall have a speed regulator, which shall have a cover and an "off" position, and shall be so designed as to be capable of reducing the normal speed of the fan by not less than 20 per cent with all resistance in circuit. The regulator shall be capable of continuous use of any contact without heating or overheating.

23. *Attachment of fittings and accessories.*—(1) In other than conduit wiring all ceiling roses, wall-sockets switches, regulators, brackets, pendants and accessories attached to walls or ceilings shall be mounted on substantial teakwood blocks twice varnished after all boring holes are made in them. Brass screws only are to be used for attaching fittings and accessories to their base blocks.

(2) Unless otherwise specified in the Special Conditions of Contract all attachment blocks shall be spaced from the wall or ceiling by means of moisture proof distance pieces not less than ½ of an inch thick. The blocks should preferably consist of a hollow base and a cover, to enable the wires to be protected when fittings, etc., are removed during annual repairs.

24. *Interchangeability.*—Similar parts of all switches, lamp-holders, distributing boards, ceiling roses, brackets, pendants, fans and all other fittings of the same type shall be interchangeable.

## B.—Wood Casing Wiring.

25. *Material and pattern of casing.*—All casing shall be of teak or other approved hard wood, free from knots, shakes, sap or other defects and shall have a smooth finish. The casing shall have a grooved body with a simple reeded or plain moulded cover.

26. *Dimension of casing and capping, etc.*—The sizing of casing and capping shall be to the satisfaction of the Engineer. The grooves shall be rounded and in no case shall the width of the fillet between the grooves be less than ½ inch, or the thickness of the bush under the grooves or capping over the grooves be less than ½ inch. Dimensions of grooves shall be such that the wires will not require any force to put them in place. Where capping is attached to casing by screws at the sides, the thickness of the outer wall of the casing shall not be less than ½ inch.

27. *Run-ings of circuits.*—Wires of opposite polarity shall not be bunched, but wires of the same polarity may, with the permission of the Engineer, be bunched in accordance with I.E.E. Wiring Rule (7th edition) No 33—*vide* Annexure I.

28. *Attachment of casing to walls and ceilings.*—Ordinarily all casing shall be fixed, by means of screws, to plugs at intervals not exceeding 3 feet, arranged as provided for in clause 16. Unless otherwise specified in the Special Conditions of Contract all casing shall be spaced from the walls or ceilings by means of moisture-proof distance pieces not less than ½ inch thick. All screws shall be so spaced as not to break the wall of the grooves. Casing shall not be buried in walls. When it is ordered that casing shall be partially sunk in a chase in a permanently dry wall, it must be painted externally with at least two coats of oil-paint and be allowed to dry thoroughly before being fixed in position.

29. *Passing through floors.*—Where conductors pass through floors, the conductor shall be carried in an approved heavy gauge insulated conduit or tube. The floor tubes shall be carried 12 inches above floor line and 1 inch below ceiling line and neatly entered into the casing where shall, if required by the Engineer, be suitably protected at the floor line. Where the supply is alternating current the conductors of the circuit must be bunched in the tube.

30. *Joints in casing and capping.*—Casing and capping shall be run in lengths as long as possible. All joints shall be scarfed, or cut diagonally in longitudinal section. Capping shall be secured at the joint with two or more screws as may be necessary. Joints in capping must break joint with those in the casing.

31. *Conductors carried round mouldings and angles.*—In order to avoid carrying casing round wood mouldings or beams holes should, where practicable, be pierced through the same, provided that the piercing of such holes does not appreciably weaken the structure. A separate hole should be pierced for each groove in the casing. Where casing forms an angle on a wall or ceiling the

corners of the grooves must be properly rounded. In all other cases corner pieces with front grooving shall be used at all inside angles, where casing attached to a wall is meant to casing attached to a ceiling.

32. *Casing to harmonize with decorations.*—When wiring is to be carried over ornamental work, with which it is required to harmonize, the design of any special casing which may be necessary shall be submitted to the Engineer for approval. Casing attached to the ceilings shall be carried completely across the ceiling whenever required by the Engineer, instead of being stopped at the fittings, and in all cases where it is required by the Engineer, dummy casing must be used.

33. *Attachment of capping.*—Capping shall be attached to casing by round-headed brass screws placed in each edge at intervals not exceeding 12 inches in all sizes of and cases 1¼ inch in width, and along the centre in smaller sizes. In casing having more than two grooves, screws, for fixing the capping, shall be placed in the fillets between the conductors as well as in the outer walls of the casing, if so required by the Engineer.

34. *Painting and varnishing.*—All casing and capping shall be stirred before erection, internally and on the back, with two coats of varnish made up of not less than 3 lb. of pure shellac per gallon of spirit. In addition, all casing together with capping after erection shall be finished, painted or varnished in such manner as may be ordered by the Engineer.

35. *Inspection.*—Unless with the sanction of the Engineer, capping shall not be put on until the work has been inspected with the wires in position, and approved by the Engineer. This inspection will be done from time to time as the work progresses, on the application of the contractor.

## O.—CONDUIT SYSTEM.

36. *Conduit to be continuous.*—Conduit shall be heavy gauge solid-drawn or lapwelded of approved pattern and manufacture, and in accordance with the specification of the British Engineering Standards Committee. It shall be supplied with or without an insulating lining as may be specified in the Special Conditions of Contract. The conduit shall be electrically continuous from distribution board to outlet boxes for fittings, switches and other appliances. No conduit tube less than six-tenths inch in diameter, measured inside the metal tube or insulating lining, shall be used.

37. *Bunching of wires.*—The wires of a circuit may be bunched together in a conduit and, if the supply is alternating current, they shall be bunched.

38. *Fastenings in conduit.*—The lengths of conduit shall be joined by means of screwed sockets. Threads shall be free from grease or oil and no material of this nature shall be allowed to come in contact with the conductors. The greatest care shall be taken in preparing the conduit that no sharp edges or burrs are left which may damage the insulation. The Engineer, with a view to ensuring that the above proviso has been carried out, may require (if he should consider it necessary) that the separate lengths of conduit, etc., after they have been prepared, shall be submitted for inspection before being fixed.

39. *Precaution against insects and damp.*—In order to minimize condensation or sweating inside the tubes, all outlets of conduit systems shall be properly drained and ventilated, but in such a manner as to prevent the entry of insects.

40. *Insulating lining of tubes.*—Where insulating conduit is to be used the lining shall be firmly secured to the tube and shall not be less than one-sixteenth inch in thickness. The insulating material must not soften injuriously at any temperature below 212° Fahrenheit and must be composed of such materials as will not have a deteriorating effect on the dielectric of the conductor; it must be sufficiently tough and tenacious to withstand the abrasion test of drawing in and out long lengths of conductor from a length of tube. All bends and fittings shall be made so that neither the conduit nor the lining of the same will be injured when drawing in wires.

41. *Protection of conduit against rust.*—The outer surfaces of conduits including all bends, unions, tees, junction boxes, etc., forming part of the conduit system shall be protected from rust by being galvanized or enamelled, or by two coats of iron oxide paint, applied before they are fixed. If so required by the Engineer, all conduits shall be painted after fixing, in such manner as may be directed.

42. *Fixing of conduit.*—The conduit shall be fixed to the surface of walls, secured to plugs, arranged as in clause 28, by saddles and round-headed screws. No conduit shall be buried beneath the surface of masonry unless so specified in the Special Conditions of Contract or approved by the Engineer.

43. *Bends in conduits.*—The conduits shall be brought round angles of walls by means of bends or inspection elbows as may be directed. Angles on the face of the wall shall be arranged for by means of cast iron inspection boxes, with suitable inlet and outlet sockets and screwed joints. Each box shall be provided with a cover, properly secured, by means of which access to the conductor may be obtained. The radius on the inner side of any bend shall not be less than 3 inches and no length of conduit shall have more than the equivalent of four quarter bends from outlet to outlet, the bends at the outlets not being counted.

44. *Outlets.*—All outlets for fittings, switches, etc., shall be equipped with an approved outlet box.

45. *Conductors.*—All conductors used in conduit wiring shall be stranded.

46. *Erection and earthing of conduit.*—The whole system of conduit shall be erected and completed before the conductors are drawn in. The whole metal system of the conduit shall be electrically continuous throughout and shall be permanently and efficiently connected to earth in general conformity with the method laid down in clause 65; gas or water pipes must not be used to obtain an earth connexion. Not less than the equivalent (solid or stranded) of one No. 8 S. W. G. copper wire shall be used for making an earth connexion. In a conduit system the pipe must be continuous when passing through walls or floors, and no other form of insulating or protecting tube is required.

D.—CLEATED WIRING SYSTEM.

47. *Accessibility.*—All cleated wiring shall be run as far as practicable so as to be visible and accessible.

48. *Cleats.*—All cleats shall be of porcelain of approved design and must consist of two parts, a base piece and a cap. A special pattern of cleat should be used if necessary where conductors pass round corners, so that there may be no risk of the conductors touching the walls owing to sagging or stretching. Cleats shall be fixed at distances not greater than 3 feet apart and at regular intervals. There is not to be any apparent sag in the conductors.

49. *Fixing of cleats.*—(1) In ordinary cases, cleats shall be attached to plugs arranged as provided for in clause 15.

(2) Where practicable the same method shall be adopted in the case of stone walls, but when, owing to irregular coursing or other reasons, it is impracticable to fix the cleats in a regular and workmanlike manner, a wood batten shall be provided and fixed with not less than one plug per four-foot run. The batten shall be of teak or other suitable hard wood, ¾ inch thick, and one inch wider than the cleat used; it shall be chamfered on the edges, wrought all over and varnished with two coats of varnish (prepared as specified in clause 34), or painted, as may be ordered by the Engineer.

(3) Where reasons exist which prevent the use of either plugs or battens, cleats must be attached to the wall or ceiling in a manner approved by the Engineer.

50. *Distance apart of wires.*—(1) For pressures up to 250 volts cleats shall be of such dimensions that, in the case of branch leads, conductors shall not be less than 1 inch apart centre to centre; in the case of sub-mains, not less than 1½ inches apart, centre to centre; in no case of mains, not less than 2½ inches apart, centre to centre:

Provided that this sub-clause shall not apply to twin conductors used with the approval of the Engineer.

(2) Where the pressure exceeds 250 volts cleated wiring shall only be used under such conditions as may be laid down by the Engineer in the Special Conditions of Contract.

51. *Crossing of conductors.*—Where cleated conductors cross each other they may be either looped over to maintain the prescribed distance as fixed to an insulating bridging piece, which will rigidly maintain a separation of at least one-half inch between the poles. If the point of crossing be within 10 feet of the ground or floor level, an insulating bridging piece must be used

Provided that this clause shall not apply to twin conductors used with the approval of the Engineer.

52. *Protection near floors.*—No cleat wiring shall be left unprotected within 5 feet of a floor. When brought through the floor it shall be enclosed in conduit in the manner specified in clause 28

E.—METAL-SHEATHED WIRING SYSTEM.

53. *Flats or braided wire.*—Flats or braided metal sheathed wiring shall be used according to which is specified in the Special Conditions of Contract.

54. *Attachment to walls and ceilings.*—All conductors shall be supported on walls and ceilings at intervals not exceeding 9 inches horizontally and one foot vertically, ends special clips, fixed by screws or notable pins to the plugs, shall be used for their attachment. The heads of such screws or pins shall be set level with the surface of the clips, so as not to injure the metal sheathing. The clips shall be of such character as not to lead to corrosion or electrolysis action from contact. Saddles may only be used if specified in the Special Conditions of Contract. No bend shall have a radius of less than 3 inches.

55. *Plugs.*—Wooden plugs used for metal sheathed wiring under the above conditions shall not be less than 1½ inches long, and ¾ inch in diameter on the outer end. With the Engineer's permission, Rawl or other special plugs may be used. In other respects clause 15 shall apply.

56. *Wiring on rolled steel joists.*—Where wiring is to be carried along the face of rolled steel joists a wooden backing, preferably the full width of the joist, shall first be laid on the joist, and clipped to it as inconspicuously as possible. The wiring shall be fixed to this backing in the ordinary way.

57. *Spacing off walls.*—Unless otherwise stated in the Special Conditions of Contract all metal-sheathed wiring run on plastered walls shall be spaced ½ inch off the plaster

58. *Joints.*—Joints shall be made by means of connectors of porcelain, or other approved material, enclosed in joint boxes approved by the Engineer. The joint boxes shall be so constructed as to prevent moisture entering them, and to allow of the whitewashing of the walls without water having access to the connectors. All wires shall be bounded through or across these boxes. Bonding connexions shall be so arranged as not to come in contact with plaster.

59. *Stripping of insulation.*—(1) When V.I.R., insulation has to be stripped for joints, etc., the metal-sheathing must be nicked only, not cut, and the insulation between the metal sheath and the conductor shall be of rubber only. All tape shall be stripped off.

(2) Where paper-insulated, metal-sheathed cable is used all openings in the same shall be efficiently sealed.

60. *Protection of wiring.*—(1) When so required by the Special Conditions of Contract, metal-sheathed wiring must be covered with a sheet metal protective covering, to protect it from damage, and the base of the protective covering shall be flush with the plaster or brickwork, as the case may be.

(2) Such protective covering shall in all cases be fitted on all down drops within such distance from the floor as may be specified in the Special Conditions of Contract.

61. *Passing through floors.*—All wires taken through floors shall be enclosed in an insulated heavy gauge steel conduit, extending 9 inches above the floor and flush with the ceiling below, or protected in such other manner as the Engineer shall approve. The ends of all conduits or pipes shall be neatly bushed with porcelain, wood or other approved material.

62. *Passing through walls.*—The method to be adopted shall be either that laid down in clause 14 (3) (a) or shall be smaller to that in clause 51, the conduit to extend 1 inch beyond the wall on either side, if the wire is taken through the wall straight; and to be flush with the wall if the course of the wire is at right angles to the wall.

63. *Buried wires.*—Metal-sheathed wire shall in no case be buried directly in plaster.

64. *Metal sheathing to be bonded and earthed.*—All metal sheathing shall be well bonded throughout the whole of its length and efficiently connected with earth and shall pass the test specified in clause 67. The earthing shall extend to the metal frames of all main and branch switch and distribution boards.

65. *Earth wire and Plates.*—(1) The earthing wire and the connexion with earth shall be of the same metal, whether iron or copper, and shall be so constructed and laid as to avoid the formation of any electrolytic couple.

(2) The size of the earthing wire shall be not less than No. 8 S.W.G. or equivalent stranded cable. For the portion in the ground the size of the earthing wire shall not be less than No. 4 S.W.G. solid wire.

(3) Copper earthing wires, where underground, shall be insulated, and all earthing wires shall be protected in the manner laid down in the Special Conditions of Contract.

(4) The connexion with earth shall have a total contact area not less than is specified in the Special Conditions of Contract. It shall be buried to a depth of not less than 6 feet below ground and shall not be less than 6 feet from any building.

66. *Painting.*—All metal-sheathed wiring, or the protective covering of the same when fitted, shall be neatly painted, after erection, with two coats of zinc paint, to the satisfaction of the Engineer.

67. *Testing.*—Every circuit of metal sheathing shall be tested to earth by the Contractor with a pressure not exceeding four volts, which shall ring a bell requiring not less than half an ampere to actuate it. Alternatively a low reading ammeter may be used.

## ANNEXURE I.

### ABSTRACT OF THE WIRING RULES OF THE INSTITUTION OF ELECTRICAL ENGINEERS, REFERRED TO IN THIS SPECIFICATION.

Definitions.—(*See clause 2 of specification.*)

4. *System.*—An electrical system in which all the conductors and apparatus are electrically connected to a common source of supply.

5. *Three-wire system.*—(a) *Outer conductors.*—Those between which there is the greatest difference of potential. This use of the word *outer* must not be confused with the use of the word when applied to the external conductor of a concentric main. (b) *Neutral conductor.*—That which is at a potential intermediate between the potentials of the other conductors.

6. *Earthed.*—Connected to the general mass of the earth in such a manner as will ensure at all times an immediate and safe discharge of electrical energy.

7. *Dielectric.*—Any material which offers high resistance to the passage of an electric current.

8. *Uninsulated conductor.*—A conductor without provision, by the interposition of a dielectric or otherwise, for its insulation from earth.

9. *Bare.*—Not covered with insulating material.

10. *Enclosed conductors.*—When more than one conductor is contained within a single duct or groove, or when they are run in a continuous and not spaced apart from each other.

11. *Run-switch.*—A quick-break switch with fuse forming an integral part of the switch.

12. *Fuse.*—In writing [Special definition in clause 2 of this specification.]

13. *Single pole switch.*—A switch controlling one conductor only of a circuit.

14. *Linked switches.*—Switches linked together mechanically so as to operate simultaneously, or in definite sequence.

15. *Switchboard.*—An assemblage of switches, fuses, conductors, measuring instruments and other apparatus for the control of the electrical machinery and circuits.

16. *Grade of insulation, 250 volt cable.*—Vulcanised rubber cable is said to be I.E.E. 250 volt cable when the maximum radial thickness of its dielectric is that shown in column 2 of the table (not reprinted) and when its minimum insulation resistance is that shown in column 3 after application of a pressure test of 1,000 volts for half an hour.

17. *Grade of insulation, 650 volt cable.*—Vulcanised rubber cable is said to be I.E.E. 650 volt cable when the maximum radial thickness of its dielectric is that shown in column 10 of the table, and when its minimum insulation resistance is that shown in column 6 after application of a pressure test of 2,500 volts for half an hour.

18. *Protected machine.*—One having end shield bearings, and in which there is free access to the interior without opening doors or removing covers.

19. *Semi-enclosed machine.*—One in which the ventilating openings in the frame are covered with—

(a) Grids, expanded metal or wire gauze, with openings of not less than ½ inch, so as not to obstruct free ventilation;

(b) Wire gauze, in which the openings are less than ½ inch but not less than 0·32 inch (diameter or width);

(c) Screens with smaller openings than the above.

20. *Totally-enclosed machine.*—One in which the enclosing case and bearings are dust-proof, and which does not allow circulation of air between the inside and outside of the case.

21. *Pipe-ventilated machine.*—An enclosed machine in which the frame is so arranged that the ventilating air may be conveyed to it through a pipe attached to the frame, the ventilation being maintained by the fanning action produced by the machine itself.

22. *Forced draught machine.*—An enclosed machine in which the ventilating air supply is maintained by an independent fan external to the machine itself.

CURRENT IN CIRCUITS AND SUB-CIRCUITS—(*Clause 13 of specification*).

52. (*Part only*)—For lighting purposes, in any final sub-circuit which supplies more than 4 single point, the current must not exceed 6 amperes for pressures up to 125 volts, nor the pow r 600 watts from 126 to 250 volts and the maximum number of points on any sub-circuit must not exceed 10

BUNCHING —(*See clause 27 of specification.*)

53. *Bunching.*—Where protected from mechanical injury by metal conduits (Rule 43) or by a covering of tough rubber compound (Rule 25) conductors of opposite polarity may be bunched. Where the protecting tubing or casing is non-metallic, lengths of conductors of the same polarity and free from joints, carrying small currents for incandescent lighting, from sub-centres, as in Rule 32 may be bunched. If the supply is alternating and the protection iron or steel, the lead and return conductors must be bunched.

FLEXIBLE CONDUCTORS.—(*See clause 8 of specification.*)

54. *Size.*—Flexibles must be made up so that the total cross-sectional area is not less than equivalent to No. 22 S.W.G., and they must be composed of wires twisted together on a short lay, no wire being smaller than a No. 36 S.W.G.

55. *Dielectric and tests.*—The insulating material used as the dielectric must be pure rubber equal to washed Para rubber or vulcanized rubber of the best quality. The pure rubber must be laid on in two layers, care being taken that the edges of each layer overlap, and the radial thickness of the dielectric must not be less than 20 mils. Each coil of pure rubber flexible must be tested in air for 15 minutes with a pressure of 1,500 volts alternating between the conductors at a frequency of 50 to 100

56. *Vulcanized rubber.*—Vulcanized rubber flexible must be insulated with one layer of pure rubber and two layers of vulcanized rubber; the minimum insulation resistance and radial thickness of the dielectric must be those specified in the Table for 250 volt or 650 volt cable having similar cross-sectional area of conductor. In the case of flexibles having a conductor cross-sectional area less than 0·0009 square inch, the radial thickness must not be less than 38 mils for low pressures and not less than 62 mils for medium pressures. The pressure tests and insulation tests must be applied before braiding, and as specified in Rules 47 and 48, with the exception that the pressure tests may be applied for 15 minutes only.

57. *Sulphur.*—Insulating material containing sulphur must not be in direct contact with copper wires (Rule 41).

COPPER CONDUCTORS.—(*See clause 6 of specification.*)

58. *Standards.*—The data for the resistances of copper conductors are based on the standards defined by the Standards Committee as follows :—

(*a*) At a temperature of 20° C. the resistance of a wire of standard annealed copper one metre in length and of a uniform cross sectional area of one square millimetre is 1/58 ohms = 0·017241.....ohm;

(*b*) The density of commercial annealed copper at 20° C. is 8·89 grammes per cubic centimetre;

(*c*) A variation of 2 per cent from the adopted standard of resistance is allowed in all conductors;

(*d*) A variation of 2 per cent from the adopted standard of weight is allowed in all conductors;

(*e*) An allowance of 1 per cent increased resistance, as calculated from the diameter, is allowed in all tinned copper conductors between diameters 0·218 and 0·028 inch inclusive;

(*f*) For the purpose of calculation of tables, a lay, involving an increase of 2 per cent in each wire, except the centre wire, for the total length of the cable is taken as the standard;

(*g*) The legal standard wire gauge, as fixed by Order in Council, dated August 23rd, 1883, is adopted as the standard for all wires

SWITCHES AND CIRCUIT-BREAKERS—(*See clause 11 of specification.*)

59. *Switches and circuit breakers.*—Switches and circuit breakers (Rules 2 5, 38 and 87), whether fixed separately or combined with lamp-holders or fittings, must comply with the following requirements:—

(*a*) Overheating must not take place at the point of contact or elsewhere, when the full current flows continuously;

(*b*) They must be so constructed or arranged that the contacts cannot accidentally close when left open;

(*c*) They must be incapable of forming a permanent arc when breaking circuit, and they must be tested with pressures and currents 50 per cent in excess of those which will be used on the circuits for which they are intended;

(*d*) The bases must be of incombustible, non-conducting, and moisture-proof material;

(*e*) Circuit breakers must be so arranged and placed that no combustible material is endangered by their action;

(*f*) Unless placed in an engine room or in a compartment especially arranged for the purpose they must have their live parts covered. The covers must be of incombustible material and must be either non-conducting or of rigid metal and clear of all internal mechanism. For more than 5 amperes, at pressures exceeding 125 volts metal covers must be lined with insulating material;

(*g*) In positions where they are liable to injury or to come into contact with goods, they must be further protected by an open fronted box or other suitable guard;

(*h*) Handles must be insulated and so arranged that the hand cannot touch live metal, or be injured through an adjacent fuse blowing;

(*i*) Switches having a handle projecting through an open slot in the cover must not be used.

## REVENUE NOTIFICATIONS.

### PREPARATION OF A LIST OF CHARITABLE ENDOWMENTS AND TRUSTS, MADRAS DISTRICT.

It is hereby notified for the information of the public that in order to render more effective the control over charitable endowments and trusts vested in the Board of Revenue by the Madras Endowments and Esthetic Regulation of 1817, the Government have ordered the preparation of a list of such endowments and trusts in the City of Madras. A Deputy Tahsildar assisted by a staff of Revenue Inspectors has been appointed for the purpose; his office is in the Collector's office buildings, North Beach Road, Madras. All persons interested in the maintenance of charities other than those directly connected with worship in temples, mosques or churches are hereby invited to lodge with the said officer information respecting charitable endowments whose existence is within their knowledge describing the purposes for which the endowment was made and the properties constituting it. Purely religious endowments are outside the scope of this inquiry, as stated above. As persons directly entrusted with the maintenance of charities may sometimes be disinclined to furnish information about them it is hoped that the public in their own interests will co-operate actively in the compilation of the list and so enable the object of Government to be achieved.

Madras Collector's Office,

## NOTIFICATIONS.

*No.* 13.—In virtue of the powers delegated under clause XI of Government notification No. 4th, dated 16th July 1888, published on pages 1203 and 1204 of the *Fort St. George Gazette*, dated 29th September 1888, Part I, and in supersession of Board's notification No. 7, dated 8th July 1913, the Commissioner of Salt, Abkari and Separate Revenue hereby prescribes the following rules for the issue, etc., of licenses under section 12 of the Madras Abkari Act I of 1886, for the tapping of toddy-producing trees and for the drawing of toddy therefrom, to have effect in the following local areas from the 1st day of October 1913 :—

(1) The whole of the ordinary tracts of the Ganjam, Vizagapatam and Godavari districts and in the Agency tracts of the last two districts the villages specified in Schedule I annexed.

(2) The rest of the Presidency with the exception of the Nilgiri district and the Wynad taluk, Anjengo, Tangasseri and the Attappadi valley of the Malabar district.

(3) The Banganapalle State.

2. Tree-tapping licences shall be issued on the application—

(*a*) of licensed toddy shopkeepers in areas in which the toddy shops are sold by auction or licensed separately ;

(*b*) of persons having the exclusive privilege of manufacture and supply of coconut toddy or arrack as foreign liquor ;

(*c*) of tappers on their own application in the South Kanara district, provided that the application for licence is accompanied by an application for a permit for the transport of the toddy drawn to some particular shop and that the latter application is countersigned or acknowledged to be correct by the shopkeeper to whose shop the toddy is to be taken ;

(*d*) of tree-owners generally, and of sweet-toddy tappers in the Godavari district, in the Narasapur, Bhimavaram, Tanuku, Ellore and Yernagudem talaks of the Kistna district and in the Repalle and Bapatla talaks of the Guntur district for not more than five trees in the case of tree-owners and three trees in the case of sweet-toddy tappers, for the drawing of toddy required for domestic consumption, but not for sale ;

(*e*) of toddy shopkeepers or renters in the Mysore territory and in the Banganapalle State desiring to obtain toddy from trees growing in British territory ;

(*f*) of toddy shopkeepers in the Pudukkottai State desiring to obtain toddy from trees in British territory provided that the application is certified or countersigned by the Salt and Abkari Inspector of the State ; and

(*g*) of any member of a hill tribe whether a tree-owner or not, residing in any of the villages of the Vizagapatam district specified in Schedule II, for not more than five trees for each household for domestic consumption but not for sale.

In cases (*c*), (*b*), (*d*) and (*e*) the licences may be issued in the name of the applicant himself or of his nominee, and in cases (*a*), (*f*) and (*g*) in the name of the applicant only.

3. Persons wishing to apply for the grant of tree-tapping licences must first pay the fees (or the first instalment thereof, as the case may be) due on account of the trees which they desire to tap, into a Government treasury, which may be either the District treasury, a Taluk treasury or a Sub treasury. Divisional officers may also empower heads of villages to receive payments on account of tree-tax and to grant receipts therefor. Pudukkottai renters when applying for trees in British territory must pay the full tree-tax into a British treasury at the rates prevailing in British territory.

4. (1) Applications for the grant of tree-tapping licences must be made in the prescribed form to the Inspector, Salt, Abkari and Customs Department, in charge of the circle in which the trees are situated. Forms may be obtained from the Inspectors of Salt, Abkari and Customs Department, and from all Tahsildars and Deputy Tahsildars and will be supplied free of charge. Applications put in by shopkeepers and tappers need not be stamped, those put in by other persons must bear a court-fee stamp of one anna. In any case, if the fees have been paid into a treasury, the application must contain a certificate of payment from the treasury officer ; if payment has been made to a village head the receipt must accompany the applications. Mysore renters and shopkeepers applying for trees in British territory should pay the tree-tax into the Mysore Amildar's treasury and should present before the British Tahsildar or Deputy Tahsildar concerned along with the application in form T.T. 8, the receipt with the Amildar's certificate at the foot to the effect that the applicant is a person entitled to take out a tree-tapping licence in Mysore. The tree-tax should be calculated at the higher rate if the rates are not the same on the two sides of the frontier.

(2) Applications for tree-tapping licences in the South Kanara district should be countersigned by the owner of the trees intended to be marked, in token of his consent.

5. Toddy shopkeepers in tracts adjoining the Mysore territory will also be allowed to tap trees in Mysore for the supply of toddy to their shops on payment of the whole of the tree-tax in one instalment into the British treasuries and subject to such restrictions regarding permits, etc., as may be prescribed in this behalf. The rate of tree-tax to be paid in such cases will invariably be the higher rate in force if the rate is not the same on the two sides of the frontier.

The British and Mysore Governments reserve to themselves the right to impose, in addition to the tree-tax, a rent for the use of trees belonging to them, the same when imposed being payable by British and Mysore licensees alike. The arrangements agreed to by the Madras and the Mysore Governments with regard to the issue of licences for tapping trees in either territory on the application of farmers or shopkeepers in the other do not prevent the reservation of trees in any specified area in the Madras Presidency or in Mysore with a view to afford rest thereto or for other sufficient reason and the mere payment of tree-tax into a British or Mysore treasury does not entitle an applicant to tapping licences for trees so reserved.

6. Toddy shopkeepers in British territory adjoining the Banganapalle State will be allowed to tap trees in the State on payment of tree-tax, the rate being the same as in the Kurnool district. Similarly those in the Banganapalle State will be allowed to tap trees in the adjoining British territory. Toddy shopkeepers in British territory adjoining the Pudukkottai State will be allowed to tap trees in that State on payment of tree-tax to that State at the higher of the rates prevailing on both sides of the frontier.

7. Persons applying for the issue of licences will be responsible to Government for all sums payable as tree-tax on account of the trees licensed to be tapped.

8. (1) On receipt of an application, the Inspector, unless he sees special cause to the contrary, will at once take steps for the marking of the trees by an officer superior in rank to a petty officer and for the issue of the licence. Applicants for trees shall point out to the marking officer, when required by the latter to do so, the trees applied for by them. Should they fail to do so after reasonable notice, the fees paid by them shall be liable to be forfeited at the Collector's discretion.

(2) In the Godavari district, in the Narasapur, Bhimavaram, Tanuku, Ellore and Tenugudem taluks of the Kistna district, and in the Repalle and Bapatla taluks of the Guntur district, trees intended for the drawing of fermented toddy and those for the drawing of sweet toddy shall, as far as possible, be in separate topes or blocks.

9. Collectors may, from time to time, prescribe the minimum number of trees to be entered in an original application. They may also direct that the trees situated in one village only shall be included in an application.

10. Toddy shall not be drawn from any toddy tree, nor shall any pot be attached to any toddy tree, until the tree has been marked by the proper officer.

11. For palmyra and date trees in the Presidency and for Dadaul (*Areca Wightii*) trees in South Kanara, tree-tapping licences shall be annual, that is, in force from 1st October or any subsequent date to the 30th September immediately following, and for cocoanut and mgo trees they shall be half-yearly, that is, in force from 1st October or any subsequent date to the 31st March immediately following, and from 1st April or any subsequent date to the 30th September immediately following except in the case of the trees which have been illicitly tapped, on which the full tree-tax may be levied.

12. The following shall be the fees payable on account of each tree for the tapping of which licence is applied for :—

| Districts. | Cocoanut palms (for each half-year as defined in rule 11 above). | Sago palms (for each half-year as defined in rule 11 above). | Palmyra or date palms (for the whole year as defined in rule 11 above). | Dadaul (*Areca Wightii*) palms (for the whole year mentioned in rule 11 above). |

| *In the case of annual fees.* | |
| Between 1st October and 31st December in any year. | One-half at the time of application and the other half on the 1st February following. |
| Between 1st January and 30th April in any year .. | One half at the time of application and the other half on the 1st of the second month following. |
| Between 1st May and 30th September in any year .. | The whole at the time of application. |

*Note.*—The tree-tax payable by the hill tribes in the villages mentioned in Schedule II shall be paid in one instalment at the time of application.

14. Every instalment of tree-tax shall be paid on the first day of the month in which it falls due.

15. For the convenience of applicants, applications will be received from 1st September or 1st March; but no trees will be marked, nor licences issued, nor preparation of spathes permitted before 15th September or 15th March; nor shall pots be attached to trees before the evening of the 30th September or 31st March, as the case may be. In the case of 'Kodai Palai' palmyra trees tapped at concessice rates in the Tinnevelly subdivision, marking will be allowed from the 25th July. In the case of date trees the process of preparation will be allowed from the 15th September but the incision required for the insertion of the drip leaves will not be allowed before the evening of the 30th September. In no case shall toddy be drawn except during the currency of the licence.

16. All toddy drawn under the tree-tapping licences granted in accordance with these rules shall, as soon as the pots containing it are removed from the trees, be immediately conveyed direct to a distillery or a licensed toddy shop under a general transport permit which will be granted gratis by the Inspector. In the South Kanara district when a licensee desires to change the shop to which

his toddy is to be taken, the permit will be amended on application and on prepayment of two annas in addition to the court-fee stamp of the value of one anna to be affixed to the application. No toddy drawn under these rules shall be sold otherwise than to a licensed distiller or shopkeeper except at a regularly licensed shop. Tree-foot sales or sales in the open are absolutely prohibited.

17. Between sunset and sunrise no toddy shall be drawn or kept by a person holding a licence under these rules in the garden or field in which stand the trees which he is licensed to tap, except the toddy contained in the pots attached to the spathes of the trees, provided that the Commissioner of Salt, Abkari and Separate Revenue may, on sufficient cause being shown, relax the restriction in any local area.

* In the Madras Town Circle palmyra and date toddy may be drawn as early as 4 a.m.

The Standard Barometer and Thermometers are read at 9 a.m., 12 a.m., 4 p.m. and 9 p.m., and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The datum of the Barometer is twenty-two feet above the level of the sea, and the receiver of the rain-gauge is two feet from the ground. The wind, rain and general weather registered are for the current civil day—from midnight to midnight.

The total quantity of rain collected since January 1st is 6·78 inches, the average due for the same period being 6·31 inches.

No. 28.] MADRAS, TUESDAY EVENING, JULY 1, 1919. [PRICE, 1 anna.

## SALT, ABKARI AND CUSTOMS DEPARTMENT.

### NOTIFICATION.

*No.* 12, *dated* 23*rd June* 1919.

### NOTICE OF SALE OF ABKARI PRIVILEGES.

Notice is hereby given that the privilege of sale of toddy in independent shops in the tree-tax areas of the Presidency including the Banganapalle State and the toddy farms of 124 villages of the Parlakimedi Taluks of the Ganjam district will be put up to auction subject to the conditions hereinafter set forth. The period for which the privileges will be sold will be twelve months commencing 1st October 1919 and ending 30th September 1920. The number of shops and farms, the local limits appointed for them and the dates on which, the places at which and the officers by whom the auction sales will be conducted will be notified by Collectors in their District Gazettes. The Collector of Ganjam will notify separately the special conditions applicable to the toddy farms in his district. A separate notification will be issued regarding operations under the tree-tax system.

### Conditions of Auction Sale.

I. A deposit must be made by each bidder before bidding and will be received by the selling officer on the day of sale. A deposit of Rs. 60 will ordinarily be required from any person wishing to bid for any important shop or any large number of shops. This will be reduced to Rs. 20 in the case of bidders for not more than two or three shops of an aggregate monthly value of Rs 60 or less and to Rs. 5 in the case of bidders for single small shops. In the Kurnool district, the selling officer may, where he finds it necessary, require a deposit of Rs. 10 from bidders for toddy shops. In the South Kanara district, the selling officer may, at his discretion, reduce the deposit to Rs. 2 for shops whose average monthly rental does not exceed Rs. 2. In the case of farms Rs. 100 will be the ordinary deposit. This will be reduced to Rs. 50 in the case of bidders for farms of an aggregate monthly rental of not more than Rs. 100 and to Rs. 10 in the case of bidders for single small farms.

II. The shops or farms will be put up to auction in the order in which they are notified, unless the selling officer sees reason to change that order. Upset prices will be fixed at the discretion of the Collector. The reserve price placed by Government on the shops or farms will not be published, but the average of the previous five years' rentals will be notified by the Collectors, wherever possible, for the information of bidders.

III. No person will be allowed to bid for another unless he holds a power of attorney from him.

IV. The officer conducting the sale may, at his discretion, refuse to accept the bid of any person on the ground (1) that he has been convicted by a Criminal Court or has previously been guilty of such a breach of the conditions of licence or of a contract under the Abkari Opium Act as to render him undesirable as a holder of a license; or (2) that he is insolvent or in arrears to Government; (3) that his bid is purely speculative; (4) that he is a village officer or a relative of a village officer of the village in which the shop is situated or which is supplied by the shop, or of a neighbouring village; (5) that he is a contract supplier of country spirits for the contract area within which the shop is situated; (6) that he is a farmer bidding for beer shops; (7) that such a course is necessary to prevent arrangements to the detriment of Government interests; or (8) for any other valid reason.

V. The shops will be knocked down to the highest bidder. If for any of the reasons mentioned in the preceding clause the highest bid is rejected, the next highest shall be taken or the shop resold at the selling officer's discretion. In case of dispute the selling officer's decision shall be final. The sale will be subject to formal confirmation of the Collector, who shall be at liberty to accept or reject any bid at his discretion. Such formal confirmation will be tantamount to an acceptance of the bid, unless revised by the Board of Revenue for special reasons, and will be necessary whether the sale be held by the Collector himself or by any officer appointed by him.

VI. At the close of each day's sale, the deposits made by the unsuccessful bidders will be returned to them. As the auction proceeds, each person whose bid is accepted shall at once, if so required by the selling officer, or otherwise at the close of the day's sale, make a further deposit of half a month's rent (in addition to the deposit made under clause I) for each shop or farm unless the initial deposit equals or exceeds two months' rent. Should he fail to do so, the deposit made by him under clause I will be forfeited and the shop or farm will be put up again immediately by the selling officer on the above conditions or otherwise disposed of by the Collector and the defaulter will be debarred from bidding again for the same or for any other shop or farm.

VII. Any person to whom a shop or farm has been knocked down and who has made deposits as provided in clauses I and VI shall also deposit, in cash or approved security, within ten days from the date of communication of the Collector's acceptance of the bid, such further sum as with the former deposits will make up two months' rent and shall without unnecessary delay take out a licence on the conditions hereinafter set forth. In the event of the purchaser's death after issue of the licence, his heirs and assigns shall be responsible for all moneys that may become due to Government under the terms of the licence as well as for the proper observance of all the conditions of the licence. Should the initial deposit exceed two months' rental, the excess will be refunded unless the purchaser is requested to deposit twice that sum under clause VIII infra.

VIII. If on enquiry subsequent to sale the purchaser shall be found to be of doubtful solvency, he may be required either to deposit two months' rental in addition to the sum prescribed in clause VII supra, or to get a surety or sureties to execute a security bond for the due payment of all moneys that may become due by him under the terms of the contract. The bond shall be stamped (article 57, Schedule I, Act II of 1899) and registered at the expense of the purchaser if the amount secured exceeds Rs. 1,000. In all cases where sureties are demanded the licensee shall be bound to execute a counterpart agreement.

IX. On the failure of any person to make a deposit or take out a licence under clause VII or to comply with any requisition or to execute any engagement under clause VIII supra, the deposits already made may be forfeited and the shop or farm may be resold under the orders of the Divisional Officer on a date to be notified by the Collector or may be otherwise disposed of by the latter officer. Resales under this clause will be at the risk of the defaulting bidder, who will forfeit all gain, and in the event of a loss, will be required to make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the resale. In the latter case, the forfeited deposits will be deducted from the loss arising from the resale, and the remainder, if any, will be recoverable in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposits be greater than the loss by resale, the whole of such deposits will be credited to Government. The defaulting bidder will be similarly liable if the shop or farm is disposed of otherwise than by resale and such disposal results in loss to Government as compared with the original sale.

X. The purchaser of any abkari or opium privilege is liable to the penalties prescribed for breaches of the conditions set forth below, though a formal licence may not have been issued to him.

XI. The deposits referred to in clause VII or VIII may be made either in cash or in recognized Government, Port Trust, Municipal or Local Board securities or by depositing Postal Savings Bank pass-books. When deposits are made otherwise than in cash, the Collector may demand that they shall be of such higher face value than the cash deposit required, as in the circumstances of the market he may think necessary. The securities or Savings Bank pass-books deposited must be endorsed in the name of the Collector and Government promissory notes must be enfaced for payment of interest at the treasuries at which they are deposited, if so required. Deposits in cash will be adjusted towards the instalments of kists due in the last months of the period of the lease. Deposits of securities or savings bank pass-books will be returned upon payment of the full amount of the kists due in cash unless the depositors wish that Government should take them over, in which case they will be taken over at the price of the day, and the balance, if any, due to Government must be paid in cash. In cases of default under clause IX of the conditions of auction sale or under condition 31 of the General Conditions applicable to all Abkari and Opium Licences, all securities deposited are liable to be sold for any amount due to Government under the terms of the lease, the remainder, if any, due after such sale, being recovered as arrears.

## General Conditions applicable to all Abkari and Opium Licences.

1. Shops and depots must be opened by the dates fixed by the Collectors and must be kept open every day unless there is temporary or permanent closure is authorized under condition 10, 11 or 41 infra.

2. Except where definite sites in the possession or under the control of Government have been prescribed, purchasers of shops must make their own arrangements for securing proper sites for their shops. They are at liberty to choose any site within the local limits assigned by the Collector, provided the site selected is approved of by the Revenue and Police authorities. The limits of the site selected and approved will be entered in the licence. The possession (except subject to the rules applicable to enlisted persons) or sale of liquor, opium or intoxicating drugs outside these limits is prohibited.

3. Sales under any abkari or opium licence must be conducted in an approved building of which the whole or the whole of a separable part must be entirely set aside for use as a depot or shop. In the case of arrack shops and taverns in municipalities, or towns having a population of 20,000 or over, there shall be no possible means of ingress or egress in any direction except into the main street; if there are other doors they shall be kept locked under the seal of an officer of the Salt, Abkari and Customs Department; the interior of the shop shall be sufficiently lighted by day and the whole interior visible from the front door; the shop shall not be used as a place of residence save by the vendor and his family or caretakers. If there are means of communication between the depot or shop and an adjoining dwelling house, they must be kept locked at night.

4. Except when two or more foreign liquor licences are held by one person or in the case of licences held by chemists and druggists and medical practitioners, sales under different licences must be conducted in different premises.

5. Private bars in liquor shops may be allowed by the Collector under a special licence to be granted by him free of fee; provided that the interior of the bar is wholly visible from the doorway

and that the entrance to it is either through the main door of the shop or through a separate door provided with a proper sign to show the nature of the bar.

6. A signboard must be affixed to the front of each depot or shop showing the nature and number of the licence under which sales are conducted there, the name of the licensee and (except in the case of foreign liquor) the current rate of sale. These particulars must be legibly painted in the local vernacular and in the case of taverns and wholesale depots in English also. The licence must be hung up in a conspicuous place within the depot or shop.

7. The possession upon any licensed premises of any liquor, opium or intoxicating drugs except that to which the licence relates or of any essence or substance used or capable of being used for colouring or flavouring liquor except in accordance with the terms of a compounding licence is prohibited.

8. Such supply of liquor, opium or intoxicating drugs as the Collector may consider sufficient to meet local requirements must be maintained in depots and shops.

9. No arrack shop, foreign liquor tavern or beer shop and none of the toddy shops opened for the supply of toddy to the Salem town shall be opened before 9-30 a.m. No other shop or depot shall be opened before sunrise.

10. (a) No depot or shop shall be kept open after 8 p.m. except under special authority. Collectors may at their discretion order the closure of any depot at sunset and may on the report of the Police or for other sufficient reasons order the closure of any shop at an earlier hour if they consider such a course to be advisable in the interests of the public. The Board may for sufficient reasons order the general closure of any kind or kinds or all kinds of licensed premises at any earlier hour than 8 p.m.

(b) Collectors are authorized to notify at the time of the auction sales that specified shops will be closed on the occasion of specified festivals and that the hours of sale at specified shops which are situated within a mile of a market or shandy will be limited on market days generally so that they will be liable to limitation on such occasions by orders issued during the currency of the lease, if it is found that the shops promote drunkenness.* Discretion is also allowed to Collectors to order the closure of specified shops within 2 furlongs of factories, mills and other places where large numbers of operatives assemble on week days from 11-30 a.m. to 1-30 p.m. on the afternoons of pay days and at all hours on Sundays except between 11-30 a.m. and 4 p.m. A special condition embodying these restrictions or limitations will be inserted by the Collector in the licences granted to the renters of all such shops.

11. Depots and shops situated on or adjacent to line of march must be closed, if the Collector so orders, while a regiment or detachment of soldiers is passing or is encamped in the vicinity. Collectors or Divisional Officers shall have power also temporarily to close any shops in times of religious excitement or disturbance. Every depot and shopkeeper shall on his motion close his depot or shop when there is a riot or disturbance in the neighbourhood.

12. All liquor, opium and intoxicating drugs sold or kept for sale shall be of good quality and unadulterated. Nothing shall be added to liquor, opium or intoxicating drugs either to increase their intoxicating power or for any other purpose. This prohibition, however, does not apply to the compounding or blending of liquor or to the manufacture of intoxicating drugs from hemp drugs and opium in accordance with the terms of a licence. Liquor shall not be bottled except under a bottling licence. Nor shall different kinds of liquors be mixed and sold under the designation of one of them.

13. No woman shall be employed in any arrack or opium shop for the sale of liquor, opium or intoxicating drugs without the special permission of the Collector unless she be a member of the renter's family.

14. The sale or transport of liquor, opium or intoxicating drugs by persons below the age of 18 or by persons suffering from leprosy or any contagious disease and the employment in any capacity of such persons in shops or depots licensed for the sale of the same are prohibited. No persons who have been convicted under the Indian Penal Code shall be employed in the transport or sale of liquor, opium or intoxicating drugs without the Collector's previous permission. The Divisional Officer may, where necessary, call for the names of all persons employed or proposed to be employed in any depot or shop and forbid the sale of liquor, opium or intoxicating drugs by any person of whom he may disapprove.

15. No liquor, opium or intoxicating drug shall be sold or given—

(a) Except at shops specially approved by the General Officer Commanding the Division (or Independent Brigade) or the Officer Commanding the Cantonment or Camp, and then only in respect of such liquors as shall be approved by the same authority in consultation with the local Excise authorities and specified in the licence—

(1) to sailors of the Royal Navy, soldiers and members of their families; or

(2) to any other person living in barracks;

(b) (1) to persons whom a vendor knows, or has reason to believe, to be camp followers, i.e., any class of followers (other than private servants) whether on or off duty, who have a right to be in cantonments;

(2) to Policemen, Excise officers and Railway servants when on duty; or,

(c) in any circumstances to any—

(1) European vagrant under escort of the Police;

(2) child or young person under eighteen years of age;

(3) insane person; or

(4) person known or believed to be intoxicated.

*Note.*—The restrictions in (a) and (b) do not apply to soldiers, their families and followers when they are absent on leave from their regiments.

16. No liquor, opium or intoxicating drug shall be sold in shops except for cash. The licensee shall be bound to give intimation of the offer of anything other than cash to the nearest Magistrate or Police officer. This condition is not, however, meant to restrict credit sales in the ordinary course of business by shopkeepers or firms of standing and respectability dealing in foreign liquor for consumption off the premises.

17. No liquor, opium or intoxicating drug shall be sold either below or above such minimum † or maximum † prices as may be fixed for sale of the same in accordance with the law for the time being in force.

* For liquor shops—vide Board's Notification No. 4, dated 21st January 1919.

† For opium shops in the Agency tracts of the Ganjam, Vizagapatam and Godavari districts a uniform rate of Rs. 12 per seer is in force.

18. No liquor, opium or intoxicating drug in excess of the quantities prescribed for possession without a licence as specified below shall be issued to any person at any one time from any licensed premises without a valid permit, nor shall liquor or intoxicating drugs be sold at wholesale depots in quantities less than the minima prescribed :—

| Arrack. | Toddy. | Ganja. | Opium. |
|---|---|---|---|
| One-sixth of a gallon except in special localities separately notified, where it is generally one dram. In the Coimbatore and Cuddapah Districts and the Salem municipality four drams. | One gallon except in special localities separately notified, where it is one dram. In the Kurnool municipality and in certain villages near the Nallamalais separately notified in the Kurnool district and in the Salem municipality and the adjoining Kannankurichi and Ommyapatti villages 4 drams. | In the Agencies of Chodavaram, Vizagapatam and Godavari ten tolas of ganja and forty tolas of bhang, and elsewhere five tolas of ganja, twenty tolas of bhang and preparations or admixtures containing the above quantities. | In the Agencies of Ganjam Vizagapatam and Godavari any quantity up to three tolas, and elsewhere one tola of opium or preparations therefrom other than morphia or preparations for smoking. |

Permits shall be in printed books, which can be obtained at all offices of the Inspectors of the Salt, Abkari and Customs Department on production of receipts for payment of the cost price into a Government Treasury. The signing of blank permits for subsequent issue is prohibited.

19. Only such weights and measures as may from time to time be prescribed by the Commissioner of Salt, Abkari and Separate Revenue shall be possessed or used on any licensed premises, and they shall be tested and stamped by the stamping establishment of the district if the Collector shall so direct.

20. No drunkenness, disorder or gaming shall be permitted in depots or shops. Entertainments of any kind in depots or shops are also strictly forbidden.

21. No robbers or thieves or disorderly or riotous persons shall be harboured in depots and shops. Intimation of their resort thereto shall be given to the nearest Magistrate or Police officer.

22. No person shall be harboured in any depot or shop during the night.

23. True accounts of transactions shall be maintained from day to day in ink in the prescribed form. Unless special permission is given to the contrary, separate accounts shall be kept for the transactions under each licence. The accounts shall be in printed books which may be obtained from local Revenue officers on payment of cost price. Permits for liquor, opium or intoxicating drugs received and the counterfoils of permits issued must be carefully filed in support of the accounts. The accounts and counterfoils of permits shall be preserved for one year after the period covered by the license and shall be produced when called for by an officer not below the rank of an Assistant Inspector of the Salt, Abkari and Customs Department.

24. Except in the case of fixed fee licences, the amount for which the privilege of sale has been purchased shall be payable in twelve equal monthly instalments into a Government treasury on or before the 10th of each month beginning with April or October as the case may be. Interest will be levied on any amounts not so paid and after the 25th of the month in Madras town or the 20th of the month elsewhere shops are liable to be sold for failure to pay kists. Toddy shops may also be resold for failure to pay tree-tax. Fees for depot licences must be prepaid.

25. No remission or abatement of the rent shall be claimable on any account whatever.

26. Power is reserved to Revenue officers to suspend licences in case of failure of payment of kists or in the case of toddy licences of tree-tax on the due date. In the case of arrack, toddy, ganja and beer shops and taverns, this power will be exercised by Tahsildars or Deputy Tahsildars in independent charge, in the case of opium shops by Divisional Officers and in other cases by Collectors. In the event of suspension of a licence for failure to pay arrears, the privilege of sale will be resold with effect from the date of issue of the licence to the new purchaser or otherwise disposed of at the Collector's discretion. All losses on account of suspension and resale or other disposal of the privilege shall be borne by the defaulting licensee, but he shall have no right to any gain which may accrue. The whole of the deposit, if any, made by the licensee shall be liable to forfeiture. The officer who has power to suspend the licence may at his discretion allow sales to continue pending resale or other disposal of the privilege.

27. No privilege of supply or vend shall be sold, transferred or sub-rented without the Collector's previous permission. Nor, if the Collector so orders, shall any agent be appointed for the management of any such privilege without his previous approval.

28. No holder of any abkari or opium licence will be allowed, without special permission from the Collector, to possess any interest in any abkari or opium licence in any Native State or foreign territory or in any British territory where a low rate of duty is in force and which is adjacent to the district in which he holds his licence.

29. Such returns and information as may be required by the Divisional Officer from time to time shall be furnished by holders of licenses.

30. Licensees are bound to report to the Divisional Officer all instances which come to their knowledge of persons employed by them in the manufacture, transport or sale of liquor, opium or intoxicating drugs, committing breaches of the Abkari/Opium laws and to comply with the Divisional Officer's orders respecting the continued employment of such persons.

31. Pecuniary dealings by licensees of any kind whatever with officials of the Salt, Abkari and Customs Department are absolutely prohibited.

32. With the sanction of the Board of Revenue, any licence shall be revocable by the Collector at his discretion on giving the licensee fifteen days' notice of such revocation, in which case a proportionate part of the fee paid will be refunded.

33. All licensees shall be bound by any additional general rules that may be prescribed under the Abkari/Opium laws and shall, if so required by the Collector or any officer authorized by him, deliver up their licences for amendment or for the issue of fresh ones.

34. The officers authorised to inspect licensed shops and depots are—

(1) any officer of the Revenue Department of rank not lower than Revenue Inspector, and

(2) any officer of the Salt, Abkári and Customs Department of rank not lower than Sub-Inspector.

These officers are empowered to enter and examine the premises, to test the weights, measures, liquor, opium and intoxicating drugs in the possession of the licensee, and to call for and check the accounts kept in the shop or depot. Police officers will also make inspections when it comes within the scope of their duty.

35. All officers authorized to inspect depots and shops are authorised to detain any liquor, opium or intoxicating drugs found unfit for consumption or sale or which they may believe to have been tampered with in any of the ways referred to in condition 12 and all Collectors and Deputy and Assistant Commissioners of the Salt, Abkári and Customs Department are empowered to confiscate, or destroy such liquor, opium or intoxicating drugs.

36. An inspection note-book, with pages numbered consecutively, shall be maintained for the use of inspecting officers and shall be handed over to the Inspector of the circle or to any officer authorized by him to receive it on a receipt being given therefor.

37. An infraction of any of the conditions of the licence either by a licensee or by any person in his employment will render the licensee liable to—

Either (*a*) fine up to Rs. 50 ;

or (*b*) cancellation of licence and resale or other disposal of the privilege at the risk of the licensee and, if considered necessary by the Collector, forfeiture of deposits;

or (*c*) prosecution of the licensee or his agent for the specific offence committed.

The rent for the whole lease shall become due at once, when a lease is cancelled under this condition.

NOTE.—For continuing breaches of a licence, continuing fines may be imposed.

38. Any licence may be forfeited and the privilege be resold or otherwise disposed of at the risk of the licensee if the licensee be convicted before a Magistrate of any offence against the Abkári Opium Act, or of any offence under the Indian Penal Code, which in the Collector's opinion renders him unfit to hold it, or if it is brought to the notice of the Collector that the licensee has been convicted prior to the issue of a licence to him before a Magistrate of any such offence and has concealed that fact.

39. Any sum due by a licensee may be adjusted from the deposit, if any, made by him or collected under the Revenue Recovery Act as an arrear of land revenue. The licensee shall be bound to replace any sum adjusted from his deposit within fifteen days of receipt of notice from the Tahsildar or Deputy Tahsildar in independent charge.

40. Interest on all manups due shall be payable at the rate of 4 per cent per annum.

41. Collectors may order the transfer of depots and shops from one locality to another or their closure or the opening of new depots and shops within limits as to number to be fixed by the Board of Revenue in their discretion. But no new shops should be opened unless notice of the area selected has been published in the District Gazette six months before the commencement of the lease and no such changes as affect the interest of adjacent shopkeepers shall be made during the currency of a lease except under special sanction of the Board. A Tahsildar may at any time permit the transfer of a shop within the limits notified for the shop in the sale notice.

42. The right is reserved to the Collector to grant 'occasional licences' for the sale of liquor, opium and intoxicating drugs, on the occurrence of fairs, festivals, etc., in places to the vicinity of which there are no regularly licensed shops. Such licences should be issued only when absolutely necessary and shall ordinarily be granted to the shopkeepers who usually supply the locality or in rented areas to be representatives of the rentor. The licence shall run only for such period not exceeding ten days as they are actually required. Not more than one licence shall be issued for a fair or festival without the sanction of the Board.

The fees to be paid for the licences shall be fixed at the discretion of the Collector.

## Conditions applicable to Toddy Licences.

1. The privilege conferred extends only to the sale of toddy.

2. Toddy required for sale should be drawn under separate tree-tapping licences to be obtained under the tree-tax rules from toddy trees in the tract in which the shop is situated or in any other tract in which the rates of tree-tax are not lower, subject to the discretion of the officer granting transport permits.

3. No toddy except the produce of trees, for the tapping of which a licence has been issued, shall be kept in the shop, offered for sale or sold.

4. The Collector will fix the minimum number of trees to be entered in original applications for tree-tapping licences.

5. The licence confers no right to the free use of any trees.

6. Arrangements for tapping private trees must be made with the owners thereof and tree-tax at the prescribed rates paid thereon.

7. The licensee shall be responsible to Government for all payments of instalments of fees due on account of tree-tapping licences granted on his application in his own name or in the names of his nominees under the conditions set forth therein and in the rules relating thereto.

8. Toddy may be imported from His Exalted Highness the Nizam's Dominions for sale in toddy shops in the Bellary District on payment of a duty of two and a half annas per gallon.

9. Toddy shopkeepers in British districts adjoining Mysore, Bangalore and Pudukkottai will be allowed to tap trees in those States on payment of tree-tax into British treasuries in the case of Mysore and Bangalore and into the State treasury in the case of Pudukkottai.

10. The addition of water to and the distillation of spirits from toddy are absolutely prohibited.

11. No sweet toddy, even if it be the produce of marked trees on which tree-tax has been paid, shall be kept or sold in the shop, nor shall any sweet toddy be mixed or allowed to be mixed with fermented toddy drawn from trees marked for the shop either in the shop or outside it.

12. In addition to the restrictions imposed by general conditions (2) and (14) the following restrictions will be imposed in respect of the area of shops and number of compartments and sellers in the districts named:—

| District | Maximum area. | | Maximum number of compartments and sellers. | |
|---|---|---|---|---|
| | Town shops. | Rural shops. | Town shops. | Rural shops. |
| | YARDS. | YARDS. | | |
| Vizagapatam .. .. .. | 20 × 15 | 15 × 10 | 3 | 2 |
| Godavari .. .. .. | 30 × 15 | 15 × 15 | 23 | 4 |
| Kistna .. .. .. | 15 × 15 | 15 × 10 | 15 | 3 |
| Guntur .. .. .. | 20 × 15 | 15 × 10 | 9 | 3 |

This rule may be relaxed by special order of the Collector as regards any shop or any area in which he may consider it necessary to relax it.

## LIST OF FAILURES.

The following is the list of failures in the FIRST EXAMINATION IN LAW, April 1919.

Candidates who were absent from part of the examination are regarded as having failed in the subject from which they absented themselves.

The B.A. Diplomas and the F.L. attendance certificates of candidates who had failed in the examination and have applied for the ensuing October examination will be attached to their applications.

The attendance certificates of candidates who do not apply for the October examination will be retained in the office of the Registrar and will not be returned. The B.A. Diplomas will however be returned to them to the addresses given in their application forms. Change of address, if any, should be notified to the Registrar at once.
